

1) Include the following tag-line on the home page and all the other pages.

"Dentist and You (DAY) is a not-for-profit dental organization that provides dental help to the community through various free and paid (low cost) services. Its head office is in Calicut, Kerala, India"

The tag line should have a pleasant and legible font and font-size. It should be a hyper-text, which when clicked from any other page should take the user to the Home Page.

The tag-line should obviously be on the top somewhere between the DAY Logo and Facebook symbol.

2) Include a Site Map for the entire site.

3) The detailed page for DAY 1, 2 and 3 should have one or two images and a google map showing the exact location.

4) Where ever the usage “toDay” is there change it and make like how I have done on the menu bar.

5) Each page should have a separate and distinct page title. It is to enhance user experience and for search engine optimization.

6) All the content in the Home Page.

7) All the posters should be added to the Educational resources – posters submenu page. Like wise the audiovisuals should be embedded. And a downloadable dental ebook in pdf format. The Posters and audiovisuals should appear in a good Gallery format in a category page , and when each poster/audiovisuals file is opened in a detailed page, it should have an explanatory summary text alongside the image/video.

8) The page back-ground design is not appealing.....it requires a change.

9) The Form should be beautified, made less confusing and more comfortable and user friendly.

10) The flash-like images on the home page needs a modification. The text on the image requires correction.
